Attachments: PFCs Action Plan.12.30.09.pdf

Hi Gloria,

Thank you for your email.

As part of the transition to the new web platform, all of EPA pages, not just PFOA webpages, were significantly condensed. We're still working on an update that will add some of the most important information that went missing during the transition, including the original submissions by the companies as part of the PFOA Stewardship Program.

Here are few additional web pages on the new site that contain some of the information you're requesting:

- Main PFOA page: <https://wcms.epa.gov/assessing-and-managing-chemicals-under-tsca/perfluorooctanoic-acid-pfoa-perfluorooctyl-sulfonate>
- Regulations: <https://wcms.epa.gov/assessing-and-managing-chemicals-under-tsca/long-chain-perfluorinated-chemicals-pfcs>
- PFOA Stewardship Program: <http://www2.epa.gov/assessing-and-managing-chemicals-under-tsca/20102015-pfoa-stewardship-program>
- New chemicals: <http://www2.epa.gov/assessing-and-managing-chemicals-under-tsca/new-chemicals-program-review-alternatives-pfoa-and>
- PFC Research: <https://wcms.epa.gov/chemical-research/perfluorinated-chemical-pfc-research>
- Action Plan is attached (no longer on the site because action plans were part of an older program that's been replaced by the current [Work Plan Chemicals Program](#)).

All the old pages should be part of EPA's archives. You can search them at this webpage: <http://archive.epa.gov/>.

Please let me know if there are any other documents you need.

Thanks,

Toni Krasnic

Subject: Request for assistance with EPA websites on PFCs

Toni,

I have recently been unable to access previously available information on several TSCA websites about PFCs. For example, the links on the "Other Resources" tab of

“Perfluorooctanoic acid (PFOA), Perfluorooctyl Sulfonate (PFOS), and Other Long-Chain Perfluorinated Chemicals (LCPFCs)” <http://www2.epa.gov/assessing-and-managing-chemicals-under-tsca/perfluorooctanoic-acid-pfoa-perfluorooctyl-sulfonate> such as to the Action Plans and other information do not work.

Also, on the “2010/2015 PFOA Stewardship Program” website, only Summary Tables of the 2014 Progress Reports are posted. Previously, the actual reports from all years from each company were posted. <http://www2.epa.gov/assessing-and-managing-chemicals-under-tsca/20102015-pfoa-stewardship-program>

The information that is no longer accessible on these websites is important to NJDEP’s ongoing work on PFCs. In many cases, we did not download and save important information (such as the Action Plans, etc.) because we assumed that we would be able to access it online when necessary.

Can the information that was previously available, but is not currently accessible, be restored on these websites?

Thank you for your help!

Best regards,
Gloria
